THE LOAFER—THE WHISTLING BEAT— THE IMPOLITE PLATER—THE SHARPER PLAYING FOR DRINKS—A TEMPERANCE

This specimen of the genus home is gen-ally met with surrounded by numbers

mitted to the billiard room. But how lreep him out? say the gentlemanly time keepers—(not abloays gentlemanly—truth compels this statement.) How tell the leafer? In this way. Have stationed at each door of the room a door keeper; the time keeper might act in both capacities (it is not positively necessary that these gentlemen play when they are paid to stork.) Admit free of charge those intending to use a table, and charge a small sum to every other person passing through. Those who come to look at the players will willingly pay the fee; if they will nothing is lost, and everything gained by the plan. Try it, gentlemen of the billiard rooms.

THE IMPOLITE PLAYER.

playor wants and would enjoy site while at his favorite game. Could not our Young Men's Christian Association, or some like organization, take the matter in hand? Our word for it, the result would be existence.

New Hampshire The New Hampshire election occurred on Tuesday, and resulted in the success of the Republican ticket: r tickets in the field The Republican ticket carried Onslow Sterns, the sitting. Governor, who was nominated for reelection, and Charles P. Gage for Railroad Commissioner. The Temperance ticket presented L. O. Barrows and Henry The Temperance O. Pierce, a brother of the late President The Labor Reformers had nominated Samnel Flint and George Roberts, and the cerata John Bedel and Michael T Donohoe. The whole vote for governo had 35,777 votes, and Bard 33,004, a Tip publican majority of 5,773. In the last legislature the Kepublicans had nine ir the Senate and one hundred and ninety-three in the House, to three Democratic Senators and one hundred and forty Repsentatives. This gave a Republican me

writing from Butler, Pa., under date o danger of Petroleum and its Remedy The facts presented are of an important character, and will be new to a great many of our readers. It is plainly the intent of refiners to make a sufe oil, and no other, for every accident excites popu lar prejudice against it as a househol light, and of course diminish its use an consumption. The article also contains several important suggestions. The writer

are daily caused to life and property by use of petroleum has, as reported by telegraph, drawn the attention of the Eng-lish Parliament and induced it to regulate by law that important business Now it is strange that our Con-gress should be silent on this subgreen should be silent on this sub-ject, when it wisely enacts law for the protection of life and property on steamboats, railways, mines, &c., source of calamities not so frequent, not so widespread, and the necessity of prevention no: more urgent; and when above all a perentive can be accomplished to the ultimate benefit of the producer, refiner

steven such a low temperature takes fire, when in contact with a fame. As it burns in contact with a fame. As it burns is evates a higher heat, more gas is maintally created and so on until the less in fammable substances are converted into gas and all goes. This can be obviated by extracting or separating those lighter west infammable substances when and wherever petroleum is produced, until only those substances when and wherever petroleum is produced, until only those substances remain or are lost, that will not evolve into gas at a heat of the think the substances of the control of the did very well as an accord, but oaks an accord, but oaks and conduct to the market, to the market, so the farmer sends his produced to the market, cleansed of benzine, service to the market, cleansed of benzines. It will be spetroleum producer send his product to the market, cleansed of benzines. Will the petroleum producer send his product to the market, cleansed of benzines. Will the petroleum producer send his product to the market, cleansed of benzines. Will the petroleum producer send his product to the market, cleansed of benzines. Will the petroleum producer send his product to the market, cleansed of benzines. Will the petroleum producer send his product to the market, cleansed of benzines. Will the petroleum producer send his product to the market, cleansed of benzines. Will the petroleum producer send his product to the market, cleansed of benzines. Will the petroleum producer send his product to the market, cleansed of benzines. Will the petroleum producer send his product to the market of the petroleum producer send his product to the market, cleansed of benzines. Will the petroleum producer send his product to the market of the market of

to the farmer, by separating his chaft from his grain.

Some of the advantages would be; the string of the lighter oil to the producer, it being of little or no use to the refiner; by its being non-exporation quality it can be shipmed should and handled with a string of little or the refiner; he says be shipmed should be shipmed should be shipmed should be shipmed should be shipmed shipm

In case of a jury trial under the provisions of this act, inc dustice shall e intitled to the sum of one dollar per av in addition to the other fees allowed by law to Justices of the Peace. JOHN CLARK. Speaker of the House of Representatives.

WILMER WORTHINGTON, Speaker of the Senate.

Approved the 18th day of February

AD, 1870.

John W. Geary.

THE Spring election which transpired Rochester, N. Y., on Tuesday last, reulted in the election of Lutes (Dem.) Mayor over Andrews (Rep.) In the local boards there are considerable Republican gains, which are set forth by the Roche ter Democrat as follows:

Last year the Board of Supervisors stood 19 Republican to 14 Democrats. In the next Board there will be 21 Republiouns and 12 Democrats.

The Common Council last year stood cominally 14 Republicans to 14 Democrats, but in the appointment of officers, and in all important votes, it is well known the

combinally 14 Republicans to 14 Democrates but in the appointment of officers, and in all important votes, it is well known the Democrates managed to have one majority. This year the Council will stand 16 Republicans as 12 Democrates.

In the Board of Education there wore 8 Republicans last year and 6 Democrates. This year the Board will stand 10 Republicans to 12 Democrates.

An interesting passage at arms 15 going on between Mr. Beacher and Dr. B. Hows, the latter insisting that Mr. Beacher is a Unitarian and Mr. Beacher retorting that Dr. Bellows is outhooked. Each recognizes the strawberry mark which the other distance. At the meeting of the Hudson River Unitarian Conference Dr. Bellows such the general tone of his preaching does not differ materially from what we wish to promulgate. I want no better Unitarian than he is. The orthodox pround, and he wish the status it used to be that much is bor is taken out of our hand." To which Mr. Beacher's organ, the Christen Union, replies that in thus speaking "Dr. Bellows in the Conference who, it is generally believed, would scorn to be called Christian I. It is luminan soul. But he ought to shake off bad company. Thore were some mens in the Conference who, it is generally believed, would scorn to be called Christians. The name is too small for them. It is luminan soul. But he ought to shake off bad company. Thore were some mens in the Conference who, it is generally believed, would scorn to be called Christian Union, and he was the comprehend all the truths they have found out. Christ was oulvoned and the truths they have found out. Christ was only one conditions to the condition of the condition have the same fear?

Refrect security in all its stations is the only remedy: and this is only a question of a few cents on the gallon, which can be regulated only by a general law to the general tone of his preaching does not differ materially from what we effect, that no petroleum in any of its hap we into the market, that will not stand a fire test of at least 130 degrees Fab.

SPECIAL NOTICES.

Office of FISK & HATCH,

No. 5 Nassau Street, New-York, . 50

February 15th, 1870.

The remarkable success which attended our negotiations of the Loans of the Central Paperson Railmond Company, and the Weather Paperson Railmond Company, and the popularity and overlike which these Loans have mained in the markots, both in this fountry and Europe, have shown that the First Mortgage Bonds of wisely-docated and honorably managed Railmonds are promptly reorganized and readily taken as the most suitable, safe, and advantageous form of investment, yielding a more liberal income than can hereaster be derived from Government Bonds, and available to take their place. February 15th, 1870.

Assured that, in the selection and negotiation of superior -Railroid Loans, we are meeting a great public want, and fendering a valuable serior - National works of capital and to those great National, works of -internal improvement whose intimate ment and substantial character active to the use of Capital and the confideract of investors—we now offer with special conditions and satisfaction the

By the Atlantic and Great Western and Jamestown and Franklin Railroads, from Reno and Franklin, and from places along the Allegheny Valley Railroad by the P. R. R. and A. V. R. R. Line:

By the Alleghency Valley Railroad to By the Alleghouy River to Pittsburgh:

The following shows the amount of Reed, including the above shipments, and the difference between it and Crude: mount Refined shipped, bbls... Difference bbls... Recapitulation of the above ships

Shipment of Crude equivalent, bble..... The following table exhibits the shipments from January 1st to March 1st, 1870

Shipment of Crude equivalent, bbls......682,358

At the beginning of the month and during the first week quotations upon the Dress Goods and Notions this evening creek were given at \$4.70 and 4.75 upon seven o'clock, at J. Rice's Auction Rooms. the lower creek, and at \$4.60 and \$4.65 upon the upper creek. These prices were main without material change until the 15th of the month, when they declined upon the upper creek to \$4.30 and \$4.35, which was the price, with little variation at that point until the close.

On the 25th of the month, owing to the advance of forty cents per barrel, on oil to Cleveland, the market upon the lower creek became demoralized, and the few transactions made between that date and they are perfectly splendid. Pianos and the close of the month were at a decline of organs taken in exchange. Call and exfifteen and twenty cents from \$4.70 to amine. \$4.60, the quotations previous to the reight advance.

EXPORTS The following tables show the amount troleum exported from the port of New York from January 1st, 1870, to Feb. 26th, 1870, and from all other ports to same

Derickson's and Bole's Letters. Warren Mail publishes Representative Stone's speech against the new county bill, on the 23d ult., and we find in i xtracts from the letters of Derickson and Bole, read on that occasion. They form an interesting part of the discussion, and we copy them as a matter of record:

Mr. Stone said : "I send to the desk and desire that the Clerk will read an extract adjoining steam bakery, Fred. J. Stoven from a private letter from the Hon. David son, proprietor. Derickson, chairman of the commission to odify the laws of this State, and a gentleaan who is well known to many members of this House, and by reputation all over the State." The Clerk read as follows: the State. The Glerk read as follows:

The measure is not demanded by any of the citizens of fittas will. The business of that region is not delayed any in our ourst and parties can come from there here before noon, and with much less inconvers one third the distance from our place.

The Torpede Controversy.

From the Pittsburg Evening Chronicle. The Roberts Torpedo Patents are again in Court in a new suit. Some time since Roberts, the patentee, filed a bill in equity wgainst James Dickey, et al., trading as the Giant Torpedo Company, for infringed ment of a patent granted to him in 1866 from the mode of increasing the productive of gampiowder or its exquivalent. The arrounder, on motion for its preliminary injunction, occupied the attention of his Honor, Judge McCandless, during the greater part of last week, the patentee, Roberts, being represented by Kerr and Patterson and Bakewell & Christy, of this city, and the defendants by Goo. Shiras, Exq., of this city, and kellar & Blake, of New York. The decision of the Court was read by Judge McCandless this morning as follows:

In the Circuit Court of the United The Roberts Torpedo Patents are again

ing as follows:
In the Circuit Court of the United States, Western District of Pennsylvania.
E. A. L. Roberts vs. The Giant Torpedo Company. No. 7, May Term, 1870. ompany. No. 7, May Term, 1870.
Motion for a preliminary injunction.
Decision of the Court by Judge Mc

Because of the large interests involved

tsburgh:

tsburgh:

Each of the large interests involved, the very able arguments by distinguished counsel, and the high personal and professional regard I enter in for Mr. Commissional regard I enter in form the consideration.

So far as a Judge-should-decide, in an interference in the Reed case, I have given to this case more than ordinary study and bearing, I am constrained to say, that all the torpedoes inanufactured, sold or used under the Deckey patent, are palpable infringements of the Roberts spatent, and should be enjoined.

And I beg these respondents, some of whom have been enjoined before, to remember that a disregard of injunctions, is not visited by more pecuniary penalties, which any person, or company, who pirates a patent can readily pay, but by imprisonment in the contempt, to relieve them from which they will appeal in vain to the location of the President.

Injunction granted.

A like order was made in the case of the regard in the case of the resident.

Injunction granted.

AMUSEMENTS. Shaking and Burring—It is not necessary to journey from the tropics to Alaska in order to experience the extremes of heat and cold. Thousands undergo all the incommences of this thermometrical change every day, or every other day, as the case may be, without the trouble of moving over the direchold. A word with those involuntary Shakers. What are they doing to expedite their return to a medium temperature:—To break the chills and bani-h the fever! Are they dosing the melves with quaining, thereby imperiling the sounders of their bones and impairing the vigor of their brains and nervous system? Some of them, are no doubt, but not the majority of them, it is believed. The value of Hostetter's Stomach Bitters as a hymnless and certain specific for fever and sque is understood and appreciated in all parts of the country where intermittents prevail. The resulents of such localities begin to take it early in the sping as a protection against the missmaby which they are surrounded; not all of them, perhaps, for a blind adherence to error is the speciality of some people, but the greater number.

If there is any fixed fact in therapeutics, it is this: that the Bitters are a far better safeguard against all residence of periodic maladise produced by unwholesome exhalstions than any furng or compound in the materia medica of the profession. The assertion is made with all due respect to the faculty, but being an important ruth, and one than early concerns the health of large settlements in various parts of the country, and indeed of the public at large, it is made four-Shaking and Burning-It is I. OPIMOV OF JLDGE GRIDE

As I write with difficulty I can only a a c the conclusions to which my mind has come after a carefule rumination of this case.

This complianant has exhibited a patent dated to 1 April 1850. This is trimes faule evidence of 1 April 1850. This is trimes faule evidence of the of proof that I e patent a void or worth ess. I need not repeat my rumants in this case of Goodjear vs. Dav 22 Will C C Per 293 bu now adop them as affording a rule of decision which applies clearly to the present case.

As the intringement of the piven is admit el the only question will be a to the validity of committee and uttor rup ted experiments that the complianant succeeded in overcoming the project of an ingion nee of the people on the subject and area in after the high the strength of the project of the
